First Sprout Dual	New for 2008 Our best priced grass. 15ft wide A highly crimped root system of polypropylene with perky fresh monofilament polyethylene grass blades emerging. Robust urethane backing too! Affordable entry for all.	\$3.97	
Natural Dual	A 22 oz dual yarn system: highly crimped polypropylene root coverage, with 'slit film' fibrillated polyethylene blades that 'blossom' when brushed at finish. 15ft. 1.25" thick. High performance turf at entry level price point.	\$4.27	
Ontario Tall	30 oz and 2 inch tall. A wide open tall grass. Fibrillated polyethylene slit film that blossoms into a realistic blade visual when brushed at finish. 15ft. Even football and soccer rated too!	\$4.47	
Ontario Turf	This is a lot of turf for a little price. Thicker. Denser. Fibrillated polyethylene slit film that blossoms into a realistic blade visual when brushed at finish. 15ft. Even football and soccer rated too!	\$4.67	
Ontario Choice	Lower profile and dense fibrillated yarn that when brushed at finish emulates a full bodied 'bent grass' green. A more tailored visual. 12ft widths.	\$4.87	
Greenbriar	Bestseller in 2007. New lower price too for 2008! Beautifully crimped textured polyethylene realistic monofilament. Deep. Toe wiggling. Instant consumer appeal. 15ft widths. 1.75" and 36 ounce. Robust urethane backing with drainage holes too. <u>Canadian inventoried</u>	\$5.59	
Ontario Fine Blade	New for 2008 Slim silky 2 inch+ polyethylene monofilament. Sexy to touch, a fine blade visual, no crimp at all. Soccer field tough and impressively FIFA tested too. 15ft widths. Rubber crumb top dressed.	\$5.97	
Majestic Dual	Bestseller in 2007. New lower price too for 2008! Embrace all the features of bestselling Greenbriar (above) and the mill bolsters weight up to a hefty 44 ounce by introducing a crimped solution dyed nylon 'root' base support yarn. Fuller bodied. Subtle two colour green play. HOT! <u>Canadian inventoried</u>	\$6.69	
Prestige Dual	An equal 'brother' product to Majestic Dual above, also with the support crimped root nylon, <u>BUT WITH NO CRIMP</u> in the polyethylene monofilament grass blade. A slightly different visual surface available to our clients.	\$6.69	
Eclipse Dual	New for 2008. For our client that only wants the very biggest and best that our grass industry can build. This effectively is the same engineering as proven bestseller 'Majestic Dual' (see above) but with the raw fibre weight punched up a whopping 45%, from 44 ounce to a huge 64 ounce. Very serious grass for very serious clients. Go for it!	\$7.49
